

CONNECT WITH FIBER

New fiber optic resources put more bandwidth,
higher speeds and greater reliability within reach.

A BRILLIANT OPPORTUNITY

New fiber optic capabilities have come to Central and Northeastern Pennsylvania, and it may be available to your business or organization. **Grudi Associates** and **FirstLight** – an innovation-driven, leading provider of fiber optic connections and many other associated services – have teamed up to make a new, cutting-edge fiber optic network available.

THE RIGHT OPTICS

The new extension of this low-latency fiber optic network includes fiber to the premises systems and fiber to the cell tower. The network, with core data and switching platforms achieving high uptime, is architected for services ranging from Dark Fiber to 100 Gigabit waves to Internet, voice services and more. Grudi Associates IT professionals will work with your team to build the optimal fiber optic network solution for your needs.

GO FIBER WITH GRUDI

Here are four great reasons why:

- **Fiber-Based Services** – we offer end-to-end (including the last mile) fiber optic connection for virtually unlimited bandwidth and a future-proofed network.
- **Dedicated Bandwidth** – you will receive the full rate capacity as specified for both upstream and downstream. Bandwidth is not shared like with other providers.
- **Guaranteed Network Reliability** – we deliver measurable and guaranteed Quality of Service (QoS) levels, critical for managing a dispersed network and preventing packet loss, latency and jitter.
- **Scalable Capacity** – your connections can be increased up to 100 Gbps based on your business needs.

Grudi Associates specializes in connecting people, processes and data. As your single source for complete Telecom & IT services, we enhance your capabilities, extend your in-house resources and get the most out of your Telecom & IT investment. We work with you as a partner, delivering the advice, capabilities and support to help you take your business to the next level and achieve greater success.

Ready to Go?
